

To All Parents and Guardians,

Preparatory Committee for the Establishment of PEKO SMILE Social Welfare Corporation
Nobuyuki Kawamura, Representative Founder

About the newly established public-private cooperative kindergarten certified kindergarten (The 2nd Parents' Meeting)

This time, we would like to report mainly on matters related to questions and opinions received at the first parent meeting.

1. Overview of Kodomoen

2. Building

1) Exterior of the kindergarten

Warm color design inspired by nature-rich Hadano

2) Parking lot

1 car on the main gate side (for a wheelchair) and 9 cars on the back gate side, making total 10 cars

3) Kitchen & Lunchroom

When Horikawa Kindergarten is converted into a children's kindergarten, it is necessary to install new kitchen equipment. In addition to providing safe, nutritious and delicious school lunches, the lunchroom attached to the kitchen offers a variety of food education programs by taking advantage of the large space, which will encourage children to heighten their interest and curiosity about various matters associated with food.

4) Childcare Support Room

With the desire to create a place where parents can share the happiness of child-rearing and smile naturally, we will establish a new community space like a café where you can take a break.

3. User charge

For details on the concept of user charge, please refer to the handout of the 1st Parents' Meeting.
